

Later I was driving around drinking. I ran off in a ditch and was stuck. When Humble P.D. got there I was arrested for D.W.I.. After Chief Hendricks was called he told them to let me go and to get a wrecker to pull out my car. The officer, (Fletcher Gray), told Hendricks I had no money for the wrecker. Lennie said he would take care of it, to get me out of there before Mays came by and spotted us. My car was pulled out and I was given my beer back and allowed to drive off.

About a week later my car broke down on U.S. 59. I fell asleep on the side of the road. An Humble patrol car came up and I was arrested by Capt. Pettis. When the officer put it on the air Lennie told him to let me go and for me to contact him at 6pm and not be late. The officer asked if I was working with Hendricks to set up Mays and I told him that I was. He said he was told to help me anyway he could and also gave me money to eat on.

At 6pm I met with Lennie and was told what to do and that my car was fixed and he took care of the bill. I was told to contact Mays and try to set him up to make it look as if he burnt his house, burnt his truck, kill one of his kids or whatever I could do that would be easiest.

Lennie took me to my car and inside the car was 5 cans of beer and 1 crushed can. Along with it was a note that read, "the five cans of beer were good, the crushed can was bad so it got crushed. If you run out on me or screw this up you will be like the crushed beer can."

At another time Lennie met with John Walger and instructed me to lie my ass off as to Mays burning his house or whatever Walger wanted. I met with Walger and made a tape. He would tell me what the question was going to be and tell me what to say to it and then he would turn on the tape recorder. This was done in Walger's fire marshal truck behind an office building on Jetero Blvd.. I was told I would receive money from him, Lennie, and crime stoppers for my help. I received \$400 from crime stoppers and \$100 from John Walger that night.

I met with Walger and Hendricks who told me there would be other officers in on it so to keep my mouth shut about everything. I was told I would be wired and to play it up as Kelly had told Mays to play along with me.

I was told by Hendricks to try and get Mays to bring a gun so he would have an excuse to kill him.

On the day of Mays arrest I was called and told to come to the Humble P.D. I was taken by a D.P.S. officer to where Mays truck
